# 1. SITUATION

## Who are we? What has happened?

While the Rasman Airfield Garrison was clearing the road to the Mosque, pushing out further to retake the old checkpoints Kilo and Lima, BAF was staging a large-area assault on the passes and surrounding hills and mountains to the South, in an effort to smoke out the last remaining hideouts of the Insurgent Forces.

Now that the Road to Feruz Abad has been cleared, additional supplies are on their way to support the ongoing operation.

As the garrison was returning to the airfield, a UN Helicopter was seen taking off from the nearby Blue Helmet Outpost, heading South to pick up supplies from a storage depot outside the region. Reports indicate that this helicopter never reached its destination, in fact never having left the immediate region but that it crashed somewhere in the mountains South of the passes. UN have formally requested our assistance in finding the crashed helicopter and recovering survivors of the crash.
