Who are we? What has happened?

Having been surrounded and taken prisoner by the Russian forces in Ukraine, we were transported north. On the way through Belarus, as per protocol 7 hours after capture, we initiated our backup plan. Each 2IC carries a *very* concealed pistol with which we've taken control and killed the guards transporting us.

Unfortunately the unit has been split up, as we were being taken to different prison camps. Now we must regroup, and find a way out of this Russian backwater hellhole.
